# MOTOR CYCLISTS' ENDURANCE.

Two Hundred and Fifty Mile Run Successfully Made Yesterday.

Waltham, Mass., Aug. 7.—Of the 48 motor cyclists who left New York just before dawn this morning on a 250-mile endurance test to this city, 21 arrived together at 7:20 o'clock to-night, and several others came in ten minutes later. The cyclists came here to attend the annual meeting of the Federation of Motor Cyclists, and expect to remain here several days.

# BARON KANEKO CAUTIOUS.

Japanese Financial Expert Non-Committal as to Peace.

Oyster Bay, Aug. 7.—Baron Kaneko, financial expert, visited Sagamore Hill today by appointment for a conference with President Roosevelt. Assurance was given both by the President and Baron Kaneko that the visit had nothing to do with the pending peace negotiations or with the raising of money by a loan for either Japan or Russia. Baron Kaneko during a chat said:

"The noble work President Roosevelt has done in the cause of peace will be remembered always. It is the prayer of all of us that his efforts may be crowned with success."

"What do you think of the possible result of the peace negotiations?" he was asked.

"Doubt is expressed whether the envoys can reach an agreement," he replied, cautiously.

# Heat Leads to Clerk's Suicide

Affected by High Temperature Nelson Man Shoots Himself.

Prosperous Winnipeg Lowers the Tax Rate—An Heroic Rescue.

Nelson, Aug. 7.—John H. Nolan, chief clerk in the land office here, committed suicide this morning by shooting himself through the head with a small revolver. Nolan was greatly depressed by the heat, and when around town last evening complained of pains in his head. He was last seen alive at his residence about 6 o'clock this morning, and his lifeless body was discovered, partially undressed, in his bedroom at 6 o'clock this evening. The bullet went in over the right temple, and death must have been instantaneous. No one heard the shot. The deceased came to the Kootenays in 1890, and was in the customs service until about five years ago, when he joined the force in the registry office. He was about 33 years old. He leaves a widow and a daughter 9 years old. They left Nelson on a holiday trip Saturday. No reason is assigned for the rash act other than that given.

Prosperous Winnipeg  
Winnipeg, Aug. 7.—This city's assessment rate was struck tonight at 19.70 mills on the dollar, compared with 20 mills last year and 22 in 1903. This includes a special school levy of 3 1/2 mills.

The National Association of Master Plumbers and Steamfitters of Canada convenes here Wednesday. About 60 delegates will be in attendance.

Fine Crops in Sight

N. Bawit, president of the Northern Elevator Company, and J. MacFarlane, general manager of the Alberta Grain Company, have just completed an inspection of the crop in Alberta. Mr. Bawit fully confirms the reports of excellent prospects. He states that cutting will begin in about a week in districts at Pincher Creek. He saw what he considers the finest sample of wheat he has examined in all his experience in the grain business, and it will yield 25 to 40 bushels per acre. One farmer there has 5,000 acres under cultivation and will sow 1,500 in fall wheat this year, seeding beginning in about three weeks. The benefits of irrigation, Mr. Bawit says, are apparent in Lethbridge district, where the yield on irrigated lands will be much better than on the other land.

Kenosha, Aug. 7.—J. R. Deacon, manager of the Kenosha Iron Works, rescued the young son of C. Smith from drowning today by jumping from his buggy clean over the railing of a high bridge into twenty feet of water. The child had gone down for the last time. It was a sensational act of heroism.

# Local News.

I.O.O.F. Meeting.—Victoria Lodge, No. 1, I.O.O.F., met on Monday evening, when all members are asked to be present, as the initiatory degree will be put on and other important business transacted.

Situation at Nanaimo.—A special despatch from Nanaimo to the Colonist last night conveyed the information that "there is no change in the situation."

Wooden Water Pipes.—Last night the city council were waited on by representatives of the Pacific Coast Pipe Company and the Canadian Pipe Company for the purpose of impressing upon them the advisability of using the wood pipes for the further extension of their water system.

Busy Firm.—Only last week the British-American Paint Company of the city shipped a lot of paints, together with large consignments of various manufactures in soaps, direct to Calgary, and this week will see another car load shipment direct to Nelson, B. C.

K. of P. Picnic.—Victoria Lodge, No. 17, and Far West Lodge, No. 1, K. of P., held their picnic at Mrs. Marshall's Grove at the Gorge today. Members of both lodges, visiting brethren, wives and families, all welcome. Ample sports for the children have been provided with cash prizes awaiting the successful competitors. Ice cream and cake will be provided for the ladies. Mrs. Davis' orchestra will furnish music for the dance, which will take place at 8 p.m. in Mrs. Marshall's hall on the grounds.

An Unintentional Visitor.—Miss Louise R. Widmer, a young lady from Germany, paid a visit to Victoria on Saturday, which did not intend to make. The young lady was en route to Port Townsend from Germany, and on reaching Seattle took passage on the Whatcom. When the steamer reached Port Townsend she asked a fellow passenger if it was Port Townsend, and he replied negatively and the young lady remained on board and came to Victoria. The Port Townsend lady says: "When a little way out in the straits she discovered that the captain's conversation told her she had passed her destination. Accordingly she returned here last night. Upon arrival here she was taken in hand by Inspector Robinson of the immigration service. Being a foreigner and coming from a distant port she was held for investigation and deportation but for the fact that she produced papers showing that she had been duly admitted at New York and proving conclusively that her trip to Victoria was purely accidental."

THE FLOWER SHOW.  
Annual Exhibition Under Auspices of Victoria Horticultural Society.

Just one week from tomorrow will be the first day of the annual flower show of the Victoria Horticultural Society. Entries already received are aggregating far outnumber those of any previous show, but this year the competition is heightened by the development of the departmental feature, notably in the matter of table decorations, bouquets, and collection of greenhouse plants and other specialties.

The collection of greenhouse plants will be rather an important competition, as the exhibit is to be arranged for effect and will cover 100 square feet. The prizes are: First, \$15; second, \$10; third, \$5.

In addition to the prize lists, both general and special, the judges will have power to award prizes for flowers not specified in the list.

The medals to be presented by the society are the medals of the Royal Horticultural Society of England, for affiliated societies. These medals, together with the handsome special prize presented by Mrs. Barnard for the table decoration, are now on view at Tibbels' book store.

The programme of music to be presented on the first evening of the show is under the capable direction of Mrs. R. H. Pooley, and promises to be one of unusual excellence. The society is arranging for a change of programme for the second evening. During this week the secretary will be at home each evening to receive entries from intending exhibitors. Those interested in horticulture and who have gardens are requested to make as many entries as possible and thus contribute to the success of the show.

# Brings Home Some New Ideas

Architect F. M. Rattenbury Has Some Valuable Pointers for Victorians.

A New Road Making Process—Need of Amusement Palaces in Cities.

A Colonist reporter yesterday had an interview with F. M. Rattenbury, who has just returned from a trip to England. The excessive heat across the channel having deterred him from paying his intended visit to the Continent, he spent most of his time in or near London, devoting a considerable amount of attention to the improved modern system of hotel construction, the street paving problem and other matters of kindred nature, which are exercising the minds of men of his profession. The question of street paving being perhaps uppermost amongst these as the question of the moment in the metropolis of today.

"Two things especially," said Mr. Rattenbury, "forced themselves on my mind. One was that since the motor car as an institution has come to stay, it is perfectly obvious that even with the improved modern system of motor traveling is and will continue to be objectionable to everybody, except the occupants of the motor by reason of the dreadful dust they raise. It consequently follows that it is with them, as also with us out here, the problem of the future to construct roads which will not only stand the wear and tear but will also be comparatively dustless. In London they are now making an experiment on the Thames embankment between the Victoria and Westminster bridge, which everybody is watching with keen interest. What they are doing is to lay on the top of the ordinary macadam a layer about six inches thick of a composition made of broken rock, gravel, asphalt and I understand, some patented mixture. This operation must commend itself to us in Victoria as one to be carefully observed since something of the same nature will certainly require to be done here in the near future. The quality to be secured in the result achieved is, of course, a pavement at once elastic, practically dustless, fairly noiseless and durable; and it is claimed for the composition under review that it possesses these qualities, which, of course, remains to be seen."

"The second thing was this—that wherever one goes the effects are to be seen of the modern system of exhibition-holding in all public centres, especially in America. These places, with their palatial buildings, their ample and attractive surroundings and all the appurtenances for interesting the public are primarily designed for business and educational purposes. Their secondary object being the attraction and inducement offered by amusement. It appears now to be a generally accepted theory that such places, after they have served their original business purposes, should be converted into permanent places of delight for the people. Coney Island, for instance, burnt and rebuilt in a palatial manner, remains as a permanent place of amusement and fairground of light and color here in the heart of the city. The population of Coney Island is this metamorphosis achieved, but for the joy and delectation of New York's working thousands generally. "The buildings are practically palaces and are as cheering and attractive as the most modern and airy in America. These places, with their palatial buildings, their ample and attractive surroundings and all the appurtenances for interesting the public are primarily designed for business and educational purposes. # SUFFERING CONTINUES FOR YEARS UNTIL PE-RU-NA CURES.

MISS MARY BURNS, Halifax, Nova Scotia.

Dieting of No Avail—All Remedies Had Failed—System Completely Broken Down.

Health and Strength Entirely Restored Through Use of Pe-ru-na.

Miss Mary Burns, 23 Spring Garden Road, Halifax, N. S., writes:

"Having used Pe-ru-na for indigestion and stomach trouble and to build up a broken down system with the very best results, I am pleased to state my experience with this excellent medicine."

"I had been suffering with stomach trouble and poor digestion for some years, and although I tried many remedies and dieting, nothing seemed to restore my health until I used Pe-ru-na."

"My system was in a very run-down condition when I began to use it, but in three short months I had entirely recovered health and strength."

A BROKEN-DOWN system is a vague term which covers all of those ailments which result from a bloodless condition of the nerve centers.

Systemic catarrh is very frequently the cause of this condition.

Every mucous membrane in the body is slightly deranged by systemic catarrh.

This leads to a complete demoralization of the digestive and assimilative organs, and a bloodless condition of the nerve centers ensues.

Weakness is the result, fretfulness, irritability, worry, complaining—all of these mental conditions result from starved nerve centers.

Pe-ru-na is the remedy for these cases. It removes all the disagreeable symptoms by removing the cause of them.

Catarrh is the cause. Pe-ru-na cures catarrh. Pe-ru-na is not a cure-all. It cures one disease—catarrh.

## Are to Confer On Waterworks

City Council Is to Meet Esquimalt Co. Officials Tomorrow Afternoon.

Letter from Mr. Lubbe—Petitioners Favor Building Winter Gardens.

Gentlemen—The letter from Mr. J. L. Raymer, your water commissioner, dated August 1905, asking if the Esquimalt Water Works Co. would be prepared to consider an offer from the corporation of \$600,000 for the company's undertakings, etc., came up for consideration before the board of directors.

After discussion it was moved, seconded and carried: "That the secretary be and is hereby instructed to reply to the said letter, stating that the company is not prepared to consider the offer of \$600,000, but that if the corporation is serious in its desire to make the purchase suggested, the directors of the company would be quite prepared to meet the Mayor and aldermen to discuss the matter."

(Signed) T. LUBBE, City Clerk.

At yesterday evening's meeting of the city council the above self-explanatory letter was read. It occasioned no debate, being simply "laid on the table." It showed that the petitioners represented the Esquimalt Water Works Company tomorrow afternoon at 4 o'clock.

A petition was read from A. E. McPhillips, K.C., and 66 other property owners, requesting that a by-law be laid before the ratepayers for the purpose of borrowing the sum of \$150,000 to provide for the erection of what will be known as the Crystal Palace or People's Palace. The report of the assessor as to the assessed value of the property owned by the petitioners was also read. It showed that the petitioners represented property valued at \$2,154,353, which is in excess of the requirements by 10 per cent. of the full assessment roll. It was then moved that the city solicitor be instructed to prepare the necessary by-law, which was carried.

A communication was received from W. C. Jordan, secretary of the Pacific Coast Fire Chief's Association, informing the council that the nineteenth annual convention of that body would be held in Portland, September 12 to 15, inclusive, and requested that the local chief should attend. In moving that the letter should be referred to the fire wardens, Ald. Stewart was of the opinion that it was very necessary that the letter should be sent, as there is always something to be learned regarding fire fighting. The motion referring it to the fire wardens was carried.

J. A. Shanks wished to find out why the sidewalk had not been laid on Dalrymple road between Fairfield road and Snowdon avenue as ordered. Mr. Shanks drew attention to the fact that there was at present about one foot of dust on the road, which in winter time is turned to mud. This was referred to the streets, sewers and bridges committee.

Thos. Hooper, architect for the Home for the Aged and Infirm, in referring to the question of heating, suggested that the sum of \$1,100 be deducted from Mr. Knott's tender. This was received and filed, and the recommendation will be acted upon.

Thos. I. Worthington requested permission to re-roof the Chinese theatre. Granted, provided that the roof is covered with a coating of tar and gravel, subject to the satisfaction of the building inspector.

The acting city solicitor enclosed a copy of the agreement between the city

and the tramway company, which had been prepared by the company's solicitor, in reference to the double-tracking of the Esquimalt line from Work street to the corner of Bay and Government streets. As this agreement was not what the city and the local manager had agreed on, it was decided that it should be laid over for discussion at a meeting of the streets, sewers and bridges committee.

Water Commissioner Raymer again reported on the request of Mrs. Van Tassel for a reduction of the water rate for her house. It was pointed out by the commissioner that Mrs. Van Tassel was getting water cheaper than people in the city. It was decided to receive the report and that a copy should be sent to Mrs. Van Tassel.

The sanitary inspector reported that he had investigated the complaint from the Odd Fellows complaining of the objectionable smell arising from a stable in the rear of their building and had found it to be in a sanitary condition, but the owner had agreed to put in ventilators to carry off the odor. Received and filed and the sanitary inspector notified to see that the arrangements were carried out.

J. R. Giescombe and five others residing on the north side of Johnson street, above Cook, presented a petition against the laying of the permanent sidewalk on that street. Referred to the city assessor for report.

The finance committee presented accounts to the amount of \$6,330.92, which were received and ordered paid.

The park committee requested that \$30 of the appropriation for park purposes be used to construct rustic steps leading to the road to the Gorge park. This report was adopted and the work will be carried out.

Ald. Douglas brought up the question of band concerts at the park on Sunday afternoon. He stated that at present the Gorge park was not ready for use and that the band concerts should be given at Beacon Hill. This was referred to the park committee.

Ald. Goodacre moved that the Mayor be instructed to affix the seal of the corporation to the contract for the Home for the Aged and Infirm. Ald. Fell desired to be put on the record against building the home without heating apparatus. The citizens should have a complete building, and it appeared ridiculous for the city to build a house of this description without heating apparatus. A vote on the question was taken. Ald. Fell alone voting to the contrary.

Ald. Oddy wished to know why the lights on the causeway had not been installed, but received no answer.

The by-law for the permanent sidewalk at James Bay district was finally taken up and carried and will be finally passed at a special meeting of the council at a meeting on Thursday evening.

The council then adjourned.

Chamberlain's Colic, Cholera and Diarrhoea Remedy—The Best in Existence.

T. M. Wood, manager of the White County News, Beebe, Ark., is a representative Southern business man, who does not hesitate in expressing his good opinion of a well known remedy. He says: "It gives me pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy, having used it myself and in my family with the best results. In fact, I believe it to be the best remedy of the kind in existence. Sold by all druggists."

SUICIDE'S DEPERATE LEAP. Well-Dressed Man Jumps From the Brooklyn Bridge.

New York, Aug. 7.—In sight of hundreds of elevated and surface car passengers, a well-dressed man whose identity is unknown, leaped from the Brooklyn bridge tonight and was drowned.

The funeral of the late Rout Harvey took place yesterday from the family residence "Stonyhurst," at 2:30, and at Christ Church cathedral at 3 o'clock, where service was conducted by Right Rev. Bishop Perrin, assisted by Rev. Canon Beaudry. The survivors were the deceased's wife, Mrs. L. Hall, and his daughter, Mrs. J. Young, G. Copping and J. Weber.

On Sunday afternoon the funeral of the late William Field took place from the home of Mrs. J. Young, G. Copping and J. Weber, at 2 p. m. The remains were interred at Metochin cemetery. Rev. Fathers Laterns and Darval officiated, and the following acted as pallbearers: Messrs. J. Young, G. Copping and J. Weber.

## FORESHORE LEASES.

An interesting situation has been created by the decision of Hon. Mr. Justice Duff which was handed down on Friday last. In this connection, two points arise: One, the authority of the Chief Commissioner of Lands and Works to issue leases, it being pointed out that under section 41 of the Land Act Amendment Act of 1899 such authority was vested in the Lieutenant-Governor-in-Council; the other, the jurisdiction of the province over land under the sea below low-water mark. In regard to the first there seems to be a misapprehension. It is true that in 1899 the power of granting leases as referred to was transferred from the Chief Commissioner of Lands and Works to the Lieutenant-Governor-in-Council, and such leases, therefore, required the authority of an order-in-council to render them valid; but in 1901 the section in question was repealed and the right of issuing leases was again placed in the hands of the Chief Commissioner; and it would follow that, if the province possesses territorial rights over the land under the sea within the three-mile limit, its authority in the premises stands good. However, the jurisdiction of the province beyond low water is a disputed point, upon which no authoritative decision has been given. Mr. Elliott argued that the provincial government's jurisdiction extended to neutral waters, while it is understood the Dominion government hold that it extends as far as low water only. The contention is not by any means a new one, and it is somewhat surprising that a case has not yet gone to the judicial committee of the Privy Council for adjudication. The present litigation will no doubt lead to a reference through the courts of appeal for final settlement. In the meantime any defect in the leases the result of failure in the operation of the law itself can be made good by remedial legislation.

## THE UNHAPPINESS OF GREAT RICHES.

Perhaps in all the world there is not a better exemplification of the sorrow of riches than the case of John D. Rockefeller, the oil king. It is quite impossible to say how wealthy he really is, or what his riches consist of. He is reputed to be the richest man in the world, with the largest annual income—or, to speak more accurately, with the largest annual profits arising out of investments and speculations. He may derive a certain amount of enjoyment out of money-making in the same way that a miser glows over his hoarded treasure; but if we regard true happiness as that feeling of peace and contentment which springs from the confidence, respect and goodwill of his fellow men, and an unselfish desire to be their benefactor, then we may look upon Rockefeller as the unhappiest of mortals. No man in America has of late come in for such unmerciful scathing in the press, no man at the present time is so full in the glare of cruel, unsparring criticism, no man stands so much alone. His great wealth, his immense interests, his cold, calculating policy of money-making, and his unsympathetic attitude towards the public place him in a position of antagonism with the rest of the world. He is old, he has no intimate friends, he is out of tune with the whole people. His only relations, apart from his own family, are business relations. "The greatest want of the human heart, whether it be the heart of a monarch, a merchant prince or a beggar, is human sympathy. To him the world is a hollow mockery, and his isolation, his loneliness, is terrible. Mr. Rockefeller, with all his money and influence, is shunned. The atmosphere by which he is surrounded is the atmosphere of the cavern, and has the chill of the tomb in it. Very few normal men and women would change places with him. His profession of religion and his great money benefactions only add to the disfavor in which he is held. John D. Rockefeller is probably sincere in his religious professions. He has, however, outlived the spirit of his religion, if he ever possessed it. With him it is a formalism to the tenets of which he acquiesces himself on the basis of legality. "I have broken no law. I have followed the scriptural injunction to be diligent in business. I have given largely of my substance. God and the world can expect no more of me." These are the cold, religious sentiments of the money-maker. He is ruled by one passion, he has mastered the science of getting, his arteries run liquid gold. The Czar of Russia, and Rockefeller, King of Finance, are the two men in the world most to be pitied.

## THE VERY FIRST CANADIAN.

The popular time to celebrate a great man's memory is upon the centenary of his birth or death. There are so many such centenaries now that each day of the year might be set apart for the purpose. There is a notable exception to this rule in the case of Jacques Cartier, a statue to whose memory was unveiled on July 30th ultimo at St. Malo, from which place nearly four hundred years ago, according to the late gifted D'Arcy McGee, on "a smiling morn in May" he "sailed away." He didn't sail in May, however. He sailed in April the first time. Why July 30th or why the year 1905 should be chosen we don't know, but that is neither here nor there. Probably the good people of St. Malo thought the honor was one too long delayed, and they couldn't wait for a centenary to come around. Two days were set apart for the celebration, which was made up of orations, songs and fetes, and representatives from both Great Britain and Canada participated. Whether the time for this was properly cut out or not, it was most fitting that the memory of a man, whose name and needs are so indelibly associated with the history of Canada, should be honored in the way it was. Jacques Cartier, strictly speaking, was neither the discoverer nor founder of Canada, but his were the most important, and only important, voyages between those of John Cabot and Samuel Champlain, and gave to both historical significance and effect. Cabot's landfall would have been fruitless and Champlain's would probably never have taken place, had it not been for Jacques Cartier, for whose exploits all Canadians, and especially French-Canadians, have great admiration.

The Northwest farmer does not worry about the operations of stock-jobbing when wheat is forced up to \$1.30 a bushel. Thomas W. Lawson is no longer a hero in his eyes.

United States papers are somewhat exercised over the fact that Admiral Paul Jones was at one time in the Russian navy. That, however, was after he won fame as a buccaner; and, in any event, it was over 100 years ago.

The Washington Post remarks that if sanitary conditions are a bar as reported in Panama, there ought to be fewer objections to the appointment of politicians in connection with the canal scheme.

The quality of "homespun" is appreciated even in royalty. The London Spectator, in congratulating the Prince and Princess of Wales on the birth of their fifth child, points out that their children are real British princes, both father and son being "native born." Queen Anne was the last British monarch who enjoyed that distinction.

It is next to impossible to get a reliable census of the Chinese Empire. U. S. Consul Anderson furnishes an estimate of the population based on a count made by the imperial maritime customs. The total is given at 432,000,000. To show, however, how few Chinese come in contact with the outside world, it may be stated that the population of the treaty ports is only 7,000,000.

This will be appreciated in some parts of Victoria where cock-crowing is voted a nuisance. Portsmouth, England, has passed an ordinance for the suppression of cock-crowing. The chicken fanciers say it cannot be suppressed, but the London News says that a partial remedy consists in placing the perch where the cock roosts so high that when he stands up to crow he knocks his head against the roof and desists. A swinging board hung over his head answers the same purpose, it says.

In connection with the forthcoming visit of the British Association to Rhodesia, the British South Africa Company have issued a special set of postage stamps, consisting of 1d, 2½d, 5d, 1s, 2s 6d and 5s, the design of which represents a magnificent view of the Victoria Falls. This issue will also serve to commemorate the formal opening, during the British Association's visit to the Falls, of the bridge across the Zambesi river, one of the greatest engineering marvels of modern times, and a most important link in the Cape to Cairo railway.

U. S. Consul Dudley, Vancouver, in his report to Washington has the following bearing on a subject discussed very recently in the Colonist: "The rearing of sheep for their wool may soon become an important industry in this province. The farmers of the New Westminster district have for a number of years raised a greater or less number of sheep for the butcher, but little wool has been exported. A change seems impending. Recently a gentleman from Scotland visited the agricultural districts and made a large contract for wool to be shipped from Chilliwack to Montreal, and thence by steamer to Glasgow, for use in the mills there. It stated that the Glasgow agent made contracts with several farmers, and it is expected that the trade, of which this is the beginning, will increase from year to year."

## LETTERS TO THE EDITOR.

[The Editor does not hold himself responsible for views expressed by correspondents.]

## PETITION FOR TRAM EXTENSION

Sir—In yesterday's issue of The Colonist a report was given under the above heading, of a presentation of a petition by the residents of Douglas street and Saanich road to the local manager of the B. C. Electric Railway Company, and of the arguments used. It would appear from the report that Mr. Elliott's arguments were the only ones advanced on the subject. This, however, was not the case, for arguments were advanced showing how the proposed extension along Douglas street and Saanich road would benefit not only the residents, but would be of the greatest advantage financially to the tramway company. They are as follows: 1. That owing to the great increase in population of this district, the passengers on the Douglas street and Saanich road would be greatly increased. 2. That if the company would give the desired service many of the residents would return, and in addition to using the line, have the electric light put into their houses. 3. That if the company could make arrangements with the C. P. R. to allow them to haul freight cars to the brick yards, they could haul bricks to the railway station, thus enabling the manufac-

turers to ship direct to Vancouver or any other point on the C. P. R. or E. & N. railway, without having to handle the freight twice over before loading on the cars which has to be done at the present time. 4. That the brickyards could in the same manner get their cordwood delivered to them, thus saving the expense of hauling the cars at the station and hauling the cords piece-meal to their destination. These arguments should most assuredly have the effect of inducing the company not only to take serious notice of the petition, but to start in at once and re-lay their lines; by doing so not only will they mollify the feelings of a very badly used community, but will make very handsome profits for themselves.

ALAN S. DUMBLETON,  
Victoria, B. C., August 7, 1905.

## "DID DANIEL WRITE DANIEL?"

Sir—A valuable contribution to the literature of Biblical criticism has recently been made by our former townsman, Rev. Joseph Wilson, D.D., some years assistant to the Rev. A. A. Cridge, and at present professor of church history in the Theological Seminary of the Reformed Episcopal church at Philadelphia. In a volume of 163 well-printed pages, under the above title, he has written a profound scholarship, good sense and graceful diction, the genuineness and authenticity of the Book of Daniel. It is well known that no book of the Bible has been more bitterly and more persistently assailed than that which bears the name of the Hebrew courier and counselor of the king of Babylon. The first to assail the book, to deny its genuineness and to declare it a pious fraud of the second century B. C., was the heathen philosopher Porphyry, who, in the third century of our era, wrote fifteen books against the Christians. Since his day many others, among them not a few Christian scholars, actuated by various motives, have repeated the arguments of the brilliant heathen, and discovered and maintained the same position as to the date of this book. All these arguments Dr. Wilson fearlessly reviews and successfully refutes, living here and there a well deserved thrust at "the latest critical opinion," and maintaining the "traditional view," which is that the book was written by Daniel the Hebrew youth who on the fall of Jerusalem was, with many others, carried captive to Babylon, where, through his righteousness and wisdom, he rose to distinction and influence, gaining an intimate knowledge of Babylonian politics, customs and religion in the sixth century B. C.

The fifteen "Innocentacles and peculiarities" which he said he did not to a late date are one after another considered, explained or refuted. Other hostile evidence, such as the occasional laudatory expressions which occur in the book, and the silence of the later prophets and the Apocryphal writers are discussed. Then the evidence sustaining the genuineness of the book is massed with skill and precision. In a concluding short chapter under the heading, "Why Speakest Thou in Riddles?" the author deals in a reasonable and gentle manner with some of the difficulties which so many experience as to the obscurity of the prophecies. The book is published by Charles C. Cook of New York. The price is not stated.

W. L. C.

## A QUESTION FOR THE POLICE.

Sir—Has the city enacted a law preventing cyclists using the portion of Fairview road devoted to other vehicles? As it is the exception and not the rule for them to use the road, and a nice plank track has been made evidently for their use, the question seems a reasonable one. Strangely enough, however, my innocent endeavors to elicit information on this point from the police have failed to give me any answer, and as no policeman, in uniform, is ever seen on the road, I am unable to ask for an answer. For the sake of cyclists and pedestrians a policeman might be told off to compel the latter to jump aside even more quickly than they do at present, in order to avoid being run over.

## B. C. AND CONFEDERATION.

Sir—What year did British Columbia come into the Confederation? INQUIRER.

[British Columbia was admitted to Confederation on July 20, 1871.—Ed.]

## THE BEST HOUR.

Houston Post.  
"Get down on the floor here, daddy.  
"Get down on the floor and play."  
And that is the song my baby sings.  
Slings to me at the close of day.  
"Get down on the floor and tumble,  
"Get down on the floor and play."  
Get down on the floor now, daddy.  
"Me ants to sit down on you."

Then overboard goes the paper,  
And down on the floor goes daddy;  
And onto him clammers baby,  
And baby is so happy and glad;  
And daddy's a horse and wagon,  
Or daddy's a ship at sea,  
And rolls with a little baby,  
As happy as he can be.

Yea, rolls with the babe and tumbles,  
And tumbles, and haws, and gees,  
And always a dumpy baby,  
With rounded and dimpled knees  
Sits perched aloft unfearing,  
And laughing with delight and glee  
As the daddy ship goes tossing  
And tumbling across the sea.  
And, oh, but that ship is careful;  
The waves may foam and curl,  
But never the ship goes plunging  
Too much for a sturdy girl.  
And never the horse gets fractious,  
Or plunges or jumps aside  
So much as to mar the pleasure  
Of the wee little girl astride.

## CLARK'S POTTED BEEF.

The best of the beef deliciously seasoned. Very appetizing when spread on bread and butter or in sandwiches.

THE COLONIST OFFICE

## BERNHARDT AGAIN FURIOUS.

Sarah Bernhardt is again furious at the French government, which is conferring the Legion of Honor on Adolphe Pathé, wounding the tragedienne in the way that hurts her most. The distinction was given Pathé in recognition of the fact that she took part in concerts for French charities. Marie Laurent is the only French actress to receive the coveted ribbon. It was bestowed on her as a recognition of her work in founding the asylum for the orphans of actors rather than her talent as an actress, and the honor was plainly meant for the woman and not the actress.

## GREAT SILAY FAMILY.

The great family of Silay, a city of 14,500 inhabitants in the Philippine island of Negros, is that of Ming Lee. They are Chinese mestizos, patriarchal and vastly rich, the great house sheltering the sons and their families, more than forty adults, with droves of children. The eldest son has just completed his second term as governor of the island. The head of the family is the mother of his excellence, Señora Ming Lee, who is 80 years old, 6 feet tall and probably weighs 250 pounds. She is an inveterate gambler, and will remain for two days at the round game of Ponging, her meals being served in a

A Letter Every Woman Should Read

Dear Sirs,  
In the Vancouver World, the daily paper we take, I noticed an advertisement under your name, stating that Toilet Soap would be given your patrons in return for the coupons of the Sunlight. In my opinion the Sunlight Soap needs nothing to recommend it but its own use. I had used so many other kinds, also every kind of composition stuff that agents sell, that I at last gave up in despair and gave my washing out. My grocer advised me to try Sunlight. I did so, with very best results. Now I do all my own washing, find it a pleasure in place of toil, can wash the most delicate fabrics, silks and cashmeres, colored or not, that I would not have dared to do with other soap. My hands are never sore, no matter how much I use it. In fact I use it for toilet soap and in the children's bath. I am not anxious about the coupons, except that they might help as an inducement for other delicate women who like myself wish to do their own washing, but can't lift boilers or scrub all day. Success to the makers of Sunlight Soap.  
Mrs. D. D. Ferguson,  
273 14th Ave. East,

FIRE

INSURANCE

Now is the time to insure your property against loss by fire.

Heisterman & Co.

Clayquot Sawmill.—On the last trip of the Queen City she took to Clayquot a party of 15 laborers who were set to work to clear a site for the sawmill there to be erected.

Mandolin Club.—This evening a meeting of the Mandolin Club will be held at the Y. M. C. A. auditorium, and all members are requested to be present.

Maccabees' Review.—A full attendance of officers and members is requested at the meeting of Victoria Hive, No. 1, Ladies of the Maccabees, to be held this evening at the A. O. U. W. hall.

Y. M. C. A. Directors.—This evening a special meeting of the board of directors of the Y. M. C. A. will be held. A number of matters of importance are to be dealt with, and a full attendance of members is requested.

Salmon Galore.—Salmon are beginning to be a drug on the market. So great was the supply yesterday that the fresh fish could almost be had for the asking. Indians peddled large size ones on the street for a nickel apiece.

Fertilizing Plant.—Word has been received from the Cobalt Hill, that the fertilizing plant in connection with the whaling station at Bamfield is in course of construction, and in a few weeks more it is expected that the industry will be started.

West Coast Mines.—The Gladys mine, a property being developed by Mr. Clarke on the Alberni canal, will be ready to ship 100 tons of ore on the 14th inst. Another mine on the coast is about ready to make a shipment to the Happy Green on Deer creek.

Indians With Deer.—Yesterday on the main road to the Cobalt Hill, the warden recently appointed through the efforts of the Fish and Game Club succeeded in apprehending a number of Indians with deer in their possession, and arrested the ringleader, after a struggle during which the Indian raised his rifle in a threatening manner. The prisoner is being held until it is decided whether the evidence is sufficient for prosecution.

Gorge Launch Service.—For the balance of the season two launches will ply on the run to the Gorge. The steamer Dominion will be put on the run in competition with the Shamrock, now in that service. She will make half-hour trips, leaving the city landing at the James Bay wharf running through to the Gorge as she was operated on last year. The Dominion is owned by C. Goodwin and was built especially for the ferry service. Although employed in this last season, her owner used her in other work up to the present this season.

Involuntary Bath.—A well known Victorian enjoyed an involuntary bath on Sunday afternoon while on his way up the Gorge. Accompanied by a lady companion he was leisurely paddling his way along when by some mischance the canoe upset while in the vicinity of the sealing schoners. The gentleman, with great presence of mind, seized the young lady around the waist and swam to one of the schoners, being helped on board by a party from a pleasure boat which was nearby. After a little rest on the shore the two unfortunate returned to the city very little the worse for their dip.

To-morrow's Excursion.—The trip to see the salmon traps raised, which was postponed last week, will be made to-morrow at 10 a. m. The start is made so early so as to take advantage of the smooth waters of mid-day at Sooke. The harrier will tie up at one of Todd & Munroe's traps so as to cut the line removed from the trap. The ladies will serve lunch. Return will be made by 5 p. m. This excursion is for the benefit of the children's ward of the hospital. Only a very limited number will be carried, so as to avoid a crowd and insure that all can see. The net proceeds go to the children's ward fund.

## LOCAL NEWS.

Fruit Culture.—C. H. Cunningham, Dominion superintendent of fish culture, is expected to arrive in British Columbia in a few days on an inspection trip.

Unique Experience.—To have salmon biting on halibut hooks was the unique experience of the crew of the steamer (Kingfisher, Capt. Joyce. As a result of her fishing cruise to Hecate strait the Kingfisher crew, 150 officers and crew, halibut to Vancouver. Besides that she brought down a quantity of salmon, which, despite the depth at which the halibut hooks were set, had been caught in some cases in close proximity to the halibut.

A Record Year.—Word from New Westminster is to the effect that it is eight years since the run of salmon on the Fraser river was as good as it is this season, and in consequence a much larger amount of money will be put in circulation at the close of the season than for a good many years past. It is impossible at present to get any correct figures as to what the pack on the Fraser river will be for the present season, but it is believed that it will be close to the 800,000-case mark, which was reached in 1897, and which was the record year for the Fraser.

Lecture on George.—The "Doctrines of Henry George" was the subject of a lecture by John Z. White at the A. O. U. W. hall on Sunday afternoon. Dr. Ernest Hall introduced the speaker, who commented on the fact that the subject, while usually considered secular, was in reality of a religious character, in that it proclaimed human brotherhood under the fatherhood of God. Mr. White took occasion to endorse this sentiment and delivered an interesting address. At the close the questions from the audience were invited, and the invitation was so generally accepted that the meeting occupied nearly three hours. The speaker, Mr. Hall invited those who chose to attend a gathering at his residence in the evening.

Improving Mills.—Extensive alterations are to be made at the sawmills of the Lumber Company. A plan which has been in consideration for some time is now completed, and the mills, now situated at Piddicks, will be moved and re-erected about four miles from Ladysmith. The new mill, which will be largely increased in size. Orders have been placed for a large new boiler and a quantity of new machinery which will be used at the mills, in addition to that already in use. The lumber company have also made arrangements with the railway company to have a branch line from the main railroad to the spot, where the mill will be moved. To adjoining the spot on which the mill will be erected is a splendid belt of timber recently acquired.

Rivers Inlet Row.—Word of an alleged attempt at murder comes from Rivers Inlet. A man named Johnson, a logger, concluded that he would go prospecting along the coast. Gathering around him two likely men whose names are not known here, Johnson is said to have decided to steal a fishing boat. Picking out one that suited him Johnson is alleged to have proceeded to ship himself. Just then the owner came along and disputed the matter. Johnson is alleged to have pulled a gun and fired several shots at the fisherman, none of which took effect. Johnson after his partners then disappeared. Provincial Constable Wallace of Alert Bay, who was sent for, chased Johnson about 20 miles into the interior before he caught him. The two partners of the man were gathered as witnesses.

Fraser Valley Crops.—The crops throughout the Fraser valley, which will be harvested in a few weeks, will be the heaviest in the history of the country, unless some unforeseen calamity overtakes them. Reports from all parts tell of the excellent yields of field and farm produce, while the fruit is also good. Oats and hay are exceptionally heavy. The root crops are also heavy. The grain has suffered no loss whatever. The root crops are also heavy this year, and so far have been almost entirely free from cutworms or other pests which usually cause so much damage to crops in years when the yield is good.

Inspected Canneries.—Dr. C. J. F. Fraser, secretary of the provincial board of health, returned on Sunday evening from the Mainland, he having concluded a visit of inspection as to the sanitary conditions at Steveston. He made a tour of all the canneries along the coast, as well as a number of the canners and others who are believed to be largely responsible for the offal and fish allowed to go adrift will be summoned to court. In an interview he said: "Yesterday I visited the coast, and health and sanitary conditions at Steveston and among the canneries generally and find them in a most serious state, especially at Steveston. I am going to make my report to the board, and expect to receive instructions, but it is certain a number of summonses will be issued, and the canners will have to be more careful in future." Dr. Fraser leaves for the Mainland this morning to take action in the matter.

D. R. A. Team.—The secretary of the B. C. Rifle Association has received acceptance from eight men and the D. R. A. team is now complete as follows: Lieut. Jas. Selator, Lieut. H. C. Chamberlain, Sergt. S. C. Mortimore, C. S. M. Jno. Caven, Sergt. G. S. Carr and Corp. C. P. Bliss. Capt. W. Hart-McHarg, Sergt. Geo. Turnbull and Sergt. Major B. McLaughlin have had to decline on business reasons. The team is to go to the above there are several others going down to Ottawa, including Capt. J. Reynolds, Tite, Q. M. Sergt. Fred Kennedy and Sergt. Major A. C. Bundy. If he can obtain the necessary leave, Mr. Joynt of Ashcroft, a tyro who came to the front in a recent meeting will also go. The above, with Capt. Duff Stuart and Forrest and Staff Sergt. Fred Richardson and Corp. B. Reynolds, are returning from Bismy will make up the British Columbia representatives at Ottawa.

A Rumor.—There is a rumor that we are to have a long winter. You had better get to work and cut up some wood. Good axes for \$1.10 and \$1.25; boys' axes, or half axes, 85c and \$1; bucksaws, 75c and \$1. At R. A. Brown & Co.'s, 80 Douglas St.

During the month of August only, watches cleaned 75c, mainsprings 75c. W. B. Shakespeare, 31 Government St.

"Prices Cut Right in Half."—\$5 Flannel Suits now \$3 at B. Williams & Company.

Deeds, Not Words—\$8 Flannel Suits now \$4 at B. Williams & Company.

CHEAP RATES.

The Northern Pacific Railway Co. will sell round-trip tickets to Chicago, St. Louis, St. Paul, Minneapolis, Duluth and other Eastern points at their very first-class one-way rate plus \$10. Dates of sale, August 14-15, Sept. 1-2, 1905. Limit, thirty days. C. E. Lang, General Agent, corner Yates and Government streets.

Fruit Jars and Rubber Rings at Cheapside.

A Grand Chance.—100 Boys' Sailor Suits, long and short trousers, \$1 each, to clear. B. Williams & Company.

On Saturday last a gentleman inserted in the Colonist a classified advertisement, "Farm to Rent," which appeared for the first time Sunday morning. Up to 1 o'clock yesterday the gentleman had received 79 replies to his ad., and, needless to say, found little difficulty in renting his property. This is just one of many instances of the same kind and goes to show what a want ad. in the Colonist will do.

Anglican Synod.—A meeting of the executive committee of the Anglican Synod will be held this afternoon at the Synod office at 3 o'clock.

Warships Practicing.—Reverberations which shook windows in many residences and gave the impression that they resulted from earthquake shocks were heard yesterday morning. Investigation, however, disclosed that the sounds were the result of the practice firing being done by the ships of the United States squadron off Port Angeles.

Resigns Position.—Gordon A. Wey, superintendent of Bradstreet's for British Columbia and the Yukon Territory, has resigned his position and is leaving for California shortly. He still, however, retains his interest in the Wey & Thomas commission business at the Terminal City and expects to return to the province about January next. It is understood that he will be succeeded by Mr. E. R. Peabody.

Work at Hotel.—Rapid progress is being made in the work of erecting the superstructure of the big C.P.R. hotel. A great many of the steel pillars are in position and the first courses of brick and stone have been laid. The northern elevation of the course of stone already in position enables one to judge somewhat the appearance the building will present in a completed state. The stone is darker in color than that employed in the present building, and is of very uniform grade and distinctly pleasing to the eye. A large number of men are now employed at the site.

A Famous Editor Coming.—L. S. Amery, formerly colonial editor of the London Times, who is now engaged in writing the "History of the South African War," was in Winnipeg on Sunday on his way to the Coast to see the great American West. He is accompanied by Col. Samuel Hughes, whom he met in South Africa at the time of the war, and who is acting as his chronicler. Mr. Amery is an ardent and enthusiastic follower of Mr. Chamberlain and a firm believer in his policy of fiscal reform and of imperial federation.

Had Good Time.—A delightful time was had by those who "took in" the excursion to Tod's Inlet on Saturday afternoon, under the auspices of the members of St. John's church. It is estimated that fully 350 people were on board. The cement works were inspected, through the courtesy of Manager Butchart, this proved a very interesting feature of the trip. Refreshments were served on board, and all voted the outing a most enjoyable one. The committee who had the affair in hand are being congratulated on the success which attended their efforts.

Sailor Was Deported.—On the steamer Whatcom which arrived from the Sound on Saturday was a sailor, a British ship at Port Townsend who was deported by the Port Townsend immigration officers on being discharged from his ship. The Port Townsend call says: "Chas. Finn, a sailor in the British bark Hawthornbank, which arrived here July 30 and was taken in hand at the time by the immigration authorities, was deported today after a thorough investigation. He was found to be a public charge. He was sent to Victoria on the steamer Whatcom." The Hawthornbank came from Kobe, Japan, to Port Townsend.

Lecture on "Thought."—May E. Stevenson, traveling lecturer of the Universal Brotherhood, of Chicago, and author of the Master Thought, and editor of the New Thought Journal, delivered the first of a series of lectures in this city on Sunday evening in the K. of P. hall, corner of Douglas and Pandora streets, having for her subject "Man as Thinker, and What His Thoughts Create." There was a large attendance. The lecturer demonstrated from her point of view the connection between sickness and health, success and failure, as being the positive result of man's thought. The lecturer intends to deliver a series of lectures here.

Another Tally-ho.—The demand for conveyances to carry tourists around the suburbs has been so great that R. Bray has decided to put a tally-ho in operation. The vehicle arrived here on Friday on Friday evening last and was in commission on Saturday afternoon. It was built by the Buckeye Carriage Company of Columbus, Ohio, and is arranged to carry 19 passengers. Which is a very attractive light leather coverings to the seats the new tally-ho presents a nice appearance on the streets. It carries a refrigerator, which is so arranged that a lunch may be taken along with a guarantee that it will not be spoilt by heat. It is the intention of Mr. Bray to have the tally-ho make two trips daily, one in the morning at 9 o'clock, the other in the afternoon, the time for which has not yet been decided. It is quite likely that it will be after the arrival of the Sound boat.

## LEGAL INTELLIGENCE.

(Before Hon. Mr. Justice Duff.)

August 7, 1905.

Re Iomi Yama, Tirajiro Asano and Otsu.—These three Japanese were passengers from Japan, per steamer Tartar, for the United States, but on arrival at Vancouver they were informed by the United States medical officer acting for the immigration authorities, that he could not grant entry to the United States. On this decision they were held for deportation back to Japan on the steamer Tartar, which was scheduled to sail on the above date. Mr. Ford, counsel for the Japanese, made application for their release on the ground that they were being unlawfully detained on board the vessel. No one appeared in opposition to the application, which was granted.

It is altogether likely, though, that the Japanese having failed to pass the medical test of the United States immigration officials, they will come under the jurisdiction of and receive attention from the Canadian immigration department.

## THE POWER OF STEAM.

Many May See, But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down, he said, "What a weight!" that steam that it can lift such a weight!

There was. Millions prior to him had seen the same phenomenon, but regarded it as an unexplained mystery.

Recent scientific research has put its finger on the cause of Dandridge, calling hair, and consequent baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Tropicure destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample. The Heracleon Co., Detroit, Mich. C. H. Bowes & Co., 98 Government street, Special Agents.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

## DECISION GIVEN AGAINST G.D. COLLINS

Judge Lampman Denies Motion for Dismissal—Discusses Calling of Witnesses.

A decision was given against George D. Collins, the San Francisco lawyer, whose extradition is asked by the State of California for perjury, by Judge Lampman yesterday afternoon when, at the conclusion of the argument by Collins on a motion for dismissal, the application was denied. Judge Lampman refused to dismiss him, and in compliance with the statute asked if he wished to call witnesses in his defence. Mr. H. D. Helmecken, K.C., counsel for Collins, then rose and asked that an opportunity be given for consultation with his client as to the advisability of calling witnesses. An adjournment was taken at 3 p. m., until this morning at 10.30 for this purpose.

In his argument the accused advanced many objections. He contended that the court which tried the maintenance suit brought against him by Charlotte B. Collins, in which the affidavit alleged to be false upon which the perjury charge is based, had no jurisdiction. The affidavit, moreover, was not required or permitted by the laws of California, and consequently could not be the base of a perjury charge. He further held that had not been shown that the accused delivered the affidavit and that the administration of the oath was not proper. He contended also that what was alleged to have been done in California would not constitute the crime of perjury under the laws of Canada.

Some of the witnesses brought from San Francisco to give evidence against Collins have returned to the Golden Gate. Mr. Curran left on Saturday night, Mr. J. J. Groom on Sunday, and A. J. Henry, the notary public, is expected to leave tonight. Mr. R. V. Whiting, assistant district attorney, will remain.

## SPORTING NEWS.

The work of the committee in charge of the arrangements for the annual N. P. A. A. O. regatta at Esquimalt on Friday and Saturday is now nearing completion. Very little remains undone, so active have been the various committees. As everyone is aware, this is the premier aquatic event of the Pacific Coast, and for the last six weeks the members of the J. B. A. A. have been steadily working for its success. The regatta is only held in Victoria once every four years. The last time the J. B. A. A. No. 1 crew was in the water was at the regatta at Esquimalt in 1901. It was held at Shawanigan lake; but after due consideration it was decided that this year it would be held in Esquimalt harbor. The course at this point is very ideal, one from an oarsman's standpoint, having a very fine stretch of water for its full length.

Besides the championship events, there will be a number of races open only to members of the J. B. A. A., which makes it necessary to extend the regatta over two days.

The principal event is the senior fours, and entries for this event have been received from Vancouver, Portland and J. B. A. A. No. 1 crew has been entered from Nelson. The junior crew from that city are figuring on winning their race on Friday, and then entering for the seniors on Saturday. To do this they have to win from crews from Vancouver and the J. B. A. A.

Already two of the clubs have their entries on hand, Portland having arrived yesterday morning and Nelson last evening. The Portland crew is composed of very big men, and although it is said they average 108, they appear heavier. Only one crew has been sent by the American club, but judging from their appearance, they should be able to make the boat go some.

Besides the four oared crew, entries will be made in the senior and junior singles. Only a few rowers arrived with a complete entry; in fact, in the senior doubles the only entry which has been received by the secretary is from the local club.

The local crews appear like pigmies alongside the visiting crews, but the size does in no way interfere with their winning races.

All the rowers are in the hands of Prof. Foster, who is working hard on them in order to have them in good shape for their race. Today the local crew will take up their headquarters at Esquimalt, where they will do a little road work, as the finishing touch to their training.

The boys do not appear to worry over the result at all, and confidently expect to carry off the majority of the prizes.

Nothing has been left undone for the success of the regatta; all that is necessary is to have fine weather, which can be relied on to be at its best.

For the convenience of those who desire to witness the event, an excursion has been arranged for by the City of Nanaimo to Esquimalt on Saturday afternoon, and in the evening there will be a smoking concert, when the prizes will be presented. The officials for the regatta are: Judges—Capt. Truop, H. W. Kenton, Esq., Esquimalt; S. Yates and H. D. Helmreich, K. C. Timekeepers—Walter Chambers, H. Jones and W. H. Wilson, Esq., Esquimalt.

The entries are as follows:

**Senior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Junior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Senior Doubles**  
J. B. A. A.—W. H. Jesse, stroke; D. O'Sullivan, bow.  
**Junior Doubles**  
J. B. A. A.—B. C. Pettigill, stroke; F. C. Dillabough, bow.

**Men's Singles—Open**  
Captain Wright vs. F. G. Crickmay, 7-5, 6-3.  
F. G. Crickmay vs. F. L. Beecher, 6-2, 6-3.  
J. C. Tyler vs. W. G. Morrison, 6-2, 6-3.  
J. A. Rayner vs. Captain Williams, 6-2, 6-3.  
T. D. Stevens vs. S. L. Russell, 6-2, 6-3.  
G. A. Shannon vs. B. G. Weston, 6-2, 6-3.

**Men's Doubles—Open**  
G. A. Shannon and partner vs. Captain Wright and Captain Williams, 6-2, 6-3.  
L. H. Toole and W. G. Morrison vs. F. T. Cornwall and E. Langworthy, 6-2, 6-3.  
B. F. Farquhar and F. L. Beecher vs. J. B. A. A., 6-2, 6-3.

**Men's Singles—Open**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Junior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Senior Doubles**  
J. B. A. A.—W. H. Jesse, stroke; D. O'Sullivan, bow.  
**Junior Doubles**  
J. B. A. A.—B. C. Pettigill, stroke; F. C. Dillabough, bow.

**Men's Singles—Open**  
Captain Wright vs. F. G. Crickmay, 7-5, 6-3.  
F. G. Crickmay vs. F. L. Beecher, 6-2, 6-3.  
J. C. Tyler vs. W. G. Morrison, 6-2, 6-3.  
J. A. Rayner vs. Captain Williams, 6-2, 6-3.  
T. D. Stevens vs. S. L. Russell, 6-2, 6-3.  
G. A. Shannon vs. B. G. Weston, 6-2, 6-3.

**Men's Doubles—Open**  
G. A. Shannon and partner vs. Captain Wright and Captain Williams, 6-2, 6-3.  
L. H. Toole and W. G. Morrison vs. F. T. Cornwall and E. Langworthy, 6-2, 6-3.  
B. F. Farquhar and F. L. Beecher vs. J. B. A. A., 6-2, 6-3.

**Men's Singles—Open**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Junior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Senior Doubles**  
J. B. A. A.—W. H. Jesse, stroke; D. O'Sullivan, bow.  
**Junior Doubles**  
J. B. A. A.—B. C. Pettigill, stroke; F. C. Dillabough, bow.

**Men's Singles—Open**  
Captain Wright vs. F. G. Crickmay, 7-5, 6-3.  
F. G. Crickmay vs. F. L. Beecher, 6-2, 6-3.  
J. C. Tyler vs. W. G. Morrison, 6-2, 6-3.  
J. A. Rayner vs. Captain Williams, 6-2, 6-3.  
T. D. Stevens vs. S. L. Russell, 6-2, 6-3.  
G. A. Shannon vs. B. G. Weston, 6-2, 6-3.

**Men's Doubles—Open**  
G. A. Shannon and partner vs. Captain Wright and Captain Williams, 6-2, 6-3.  
L. H. Toole and W. G. Morrison vs. F. T. Cornwall and E. Langworthy, 6-2, 6-3.  
B. F. Farquhar and F. L. Beecher vs. J. B. A. A., 6-2, 6-3.

**Men's Singles—Open**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Junior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Senior Doubles**  
J. B. A. A.—W. H. Jesse, stroke; D. O'Sullivan, bow.  
**Junior Doubles**  
J. B. A. A.—B. C. Pettigill, stroke; F. C. Dillabough, bow.

**Men's Singles—Open**  
Captain Wright vs. F. G. Crickmay, 7-5, 6-3.  
F. G. Crickmay vs. F. L. Beecher, 6-2, 6-3.  
J. C. Tyler vs. W. G. Morrison, 6-2, 6-3.  
J. A. Rayner vs. Captain Williams, 6-2, 6-3.  
T. D. Stevens vs. S. L. Russell, 6-2, 6-3.  
G. A. Shannon vs. B. G. Weston, 6-2, 6-3.

**Men's Doubles—Open**  
G. A. Shannon and partner vs. Captain Wright and Captain Williams, 6-2, 6-3.  
L. H. Toole and W. G. Morrison vs. F. T. Cornwall and E. Langworthy, 6-2, 6-3.  
B. F. Farquhar and F. L. Beecher vs. J. B. A. A., 6-2, 6-3.

**Men's Singles—Open**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Junior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Senior Doubles**  
J. B. A. A.—W. H. Jesse, stroke; D. O'Sullivan, bow.  
**Junior Doubles**  
J. B. A. A.—B. C. Pettigill, stroke; F. C. Dillabough, bow.

**Men's Singles—Open**  
Captain Wright vs. F. G. Crickmay, 7-5, 6-3.  
F. G. Crickmay vs. F. L. Beecher, 6-2, 6-3.  
J. C. Tyler vs. W. G. Morrison, 6-2, 6-3.  
J. A. Rayner vs. Captain Williams, 6-2, 6-3.  
T. D. Stevens vs. S. L. Russell, 6-2, 6-3.  
G. A. Shannon vs. B. G. Weston, 6-2, 6-3.

**Men's Doubles—Open**  
G. A. Shannon and partner vs. Captain Wright and Captain Williams, 6-2, 6-3.  
L. H. Toole and W. G. Morrison vs. F. T. Cornwall and E. Langworthy, 6-2, 6-3.  
B. F. Farquhar and F. L. Beecher vs. J. B. A. A., 6-2, 6-3.

**Men's Singles—Open**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Junior Fours**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.  
V. R. C.—N. C. Sawers, stroke; G. W. Seymour, 3; J. A. Dillabough, 2; R. C. Spinks, bow.

**Senior Doubles**  
J. B. A. A.—W. H. Jesse, stroke; D. O'Sullivan, bow.  
**Junior Doubles**  
J. B. A. A.—B. C. Pettigill, stroke; F. C. Dillabough, bow.

**Men's Singles—Open**  
Captain Wright vs. F. G. Crickmay, 7-5, 6-3.  
F. G. Crickmay vs. F. L. Beecher, 6-2, 6-3.  
J. C. Tyler vs. W. G. Morrison, 6-2, 6-3.  
J. A. Rayner vs. Captain Williams, 6-2, 6-3.  
T. D. Stevens vs. S. L. Russell, 6-2, 6-3.  
G. A. Shannon vs. B. G. Weston, 6-2, 6-3.

**Men's Doubles—Open**  
G. A. Shannon and partner vs. Captain Wright and Captain Williams, 6-2, 6-3.  
L. H. Toole and W. G. Morrison vs. F. T. Cornwall and E. Langworthy, 6-2, 6-3.  
B. F. Farquhar and F. L. Beecher vs. J. B. A. A., 6-2, 6-3.

**Men's Singles—Open**  
J. B. A. A.—A. McLean, stroke; E. Browne, 3; C. Jenkinson, 2; F. Dresser, bow.

## MORE CANNERIES NEAR ISLAND TRAPS

**Canneryman Says More Fisheries Are Likely to Establish Near Victoria.**

Yesterday the tug Burrard arrived from the Finlay, Durham & Brodie traps with 12,000 fish, and her crew reported that all the traps were getting good catches. The fishermen expect that the salmon will commence to run much heavier when the low tides commence a few days hence. The success of the Vancouver Island traps, in the opinion of cannerymen, will result in more canneries being established near Victoria. The News-Advertiser of Sunday says: "It is not unlikely that with success following the installation of the traps

off the southern coast of Vancouver Island, canneries may be established near them," was the statement of a prominent canneryman yesterday. "It was not known whether or not the traps would be as successful as they have, and it is only a reasonable proposition that where the fish are there the canneries should be. More traps will in all probability be put in, and other canneries may go up. The towing expenses alone of one prominent firm of packers have been \$125 per day to bring fish from the traps, and this would be obviated were the cannery near to where the fish are taken.

"This would hardly mean, though, that canneries would be moved from Fraser river, as large numbers of fish would continue to be caught there. This year, however, towing steamers have brought large quantities of salmon from the traps to canneries on the river, which is an additional expense."

Aunt Beth—They say his money is tainted!  
Edith—Nonsense, aunt! I heard him say he had just cleaned up another million!—Puck.

**DR. PRICE'S CREAM**

## BAKING POWDER

makes home baking easy. Nothing can be substituted for it in making, quickly and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry.

PRICE BAKING POWDER CO., CHICAGO.

## Kanagawa Maru From the Orient

Nippon Yusen Kaisha Line Will Arrive Today—Tartar Sails for Far East.

Orion Being Made Ready for Service—New Equipment for Esquimalt Company.

Steamer Kanagawa Maru of the Nippon line, Capt. Wales, will arrive this morning from Yokohama and ports in the Orient. The Kanagawa Maru and Iyo Maru are the only vessels of the Japanese line now engaged in the service to Victoria and Seattle from the Orient. Before the commencement of the war there were six vessels, which gave a fortnightly service, and while the fighting has been going on in Manchuria the Kanagawa Maru and Iyo Maru have been giving a monthly service, running only to Yokohama, freight for Chinese ports being transhipped at the first call in place in Japan. The steamers do not call at Victoria on their outward voyages, but continue to call as heretofore when inbound. Steamer Tartar of the C.P.R. line sailed last night for the Orient, not calling at this port. She had a full cargo of general merchandise loaded at Vancouver. In her steerage there were three passengers less than it was intended should be carried, three Japanese having secured their release here yesterday on habeas corpus proceedings on the eve of their deportation by the United States immigration authorities.

HAS OUTRIGGER EQUIPMENT.

A new diving gear and extra large pumps for the B. C. Salvage Company of Esquimalt has been bought by Mr. W. F. Bullen, now in Scotland. The diving gear is the most modern on the market, the Sigsbee-Gorman patent, the construction of which allows a diver to work in 100 feet of water. It is equipped with electric lights and telephone. The new pumps are of the Gwynne pattern and can throw a stream of 24 inches, ten inches larger than the capacity of the pumps now in use by the company. The purchases of Mr. Bullen will be shipped to Esquimalt on one of the China Mutual liners.

### THE ORION.

The steam whaler Orion of Capt. S. Balcom was hauled out yesterday on the Turpel marine ways in the upper harbor to be cleaned and painted, and made ready for her service off the island coast. The station at Sechart is now complete and ready for service, the only hitch remaining to delay the commencement of the whaling industry being the delay in the negotiations with the Dominion government regarding the application for remission of duty on the vessel, which it is proposed to utilize in the life-saving service. Andrew Poss, a Tacoma man, has towed a dead whale in to Sechart wharf, and the News says: "He is likely to realise a tidy sum thereby. The News says: An English whaler from Victoria has been out to view the leviathan, and it is his expert opinion that the carcass is in fair condition. It is expected to strip the blubber from the body or else to sell the carcass to one of the down-Sound fertilizing plants.

### DAKOTA'S INJURIES.

Cracks Revealed in Bushings When Steamer Is in Dry Dock.

An official examination into the injuries sustained by the steamship Dakota in the Bremerton navy yard dry dock, where the vessel is, says this indicates that the bushings in the outer bushing of the vessel are in place too hot and did not allow sufficiently for contraction of the metal. There is a crack of more than ten inches wide in the outer bushing, and the vessel is in place too hot and did not allow sufficiently for contraction of the metal. It is indicated, it is said, that this bushing was fitted too close in the construction and during the summer months, when the vessel is in the dock, the bushing is not serious. The Dakota will be fit for duty again before the week is over.

### VANCOUVER-SEATTLE RUN.

Two Steamers to Give Daily Service—Travel via Victoria More Popular.

C. W. Cook, who has chartered the steamer Ramona for the Vancouver-Seattle service, says in an interview with the News: "The Princess Victoria has had the monopoly of the passenger trade by sea since the Ramona was withdrawn, is endeavoring to charter another steamer for the purpose of giving a daily service between the two ports. It is probable, though, the bulk of the passenger travel will still be carried by the Princess Victoria, which is not only a more attractive vessel than the Ramona or any other that can be secured to run with the run, but the Victoria has no attractions for the average passenger than the direct trip.

### LLOYD'S RETURNS

Shipbuilding Done in British Yards During Spring Months.

Lloyd's Register Shipbuilding Returns for the quarter ended 31st March, which shows that, excluding warships, there were under construction four hundred and seventy-two vessels of 1,301,457 tons gross, at the close of the quarter, of which three hundred and seventy-four of 904,802 tons are under the supervision of the surveyors of Lloyd's Register. In addition, forty-five vessels of 128,870 tons were building abroad, making a total of four hundred and nineteen vessels of 1,430,727 tons for classification by Lloyd's Register. The returns give details concerning nationality, size, etc., including warships.

### MAGNETIC SURVEY

Of North Pacific Ocean to Be Made With Wooden Brig Galilee.

A magnetic survey of the North Pacific ocean will be inaugurated within the next few days by the Department of International Research in Terrestrial Magnetism of the Carnegie Institution of Washington. A wooden sailing vessel, the brig Galilee, has been fully equipped for the purpose of the expedition at San Francisco, and it is expected that she will sail the latter part of the week on her first season's work.

The object of the expedition is to secure precise data of the distribution of the magnetic force over the Pacific ocean. Except for data from occasional expeditions and such as were acquired in wooden vessels a long time ago, the present magnetic charts used by the navigator over this region depends largely upon the observations on islands along the coasts.

### MARINE NOTES.

Steamer Montara, Captain Kelly, is on her second trip to Petropavlovsk and other ports in the Okhotsk, where there are posts of the Khabatka Commercial Company. The tug Abdon re-entered service yesterday after being overhauled and repaired. The boiler was recovered by Mr. McCarthy of Vancouver, and a new smokestack was put in the hold. British ship Glenalvon is 16 days out from Yokohama in ballast for Victoria. Steamer Queen City sailed last night for West Coast ports and steamer Venture for Nans and way ports.

A clergyman who was out walking one Sunday came across some boys who were playing baseball in a vacant lot. Going up to one of them who had just been struck out, he said: "Young man, don't you know that it is very wrong to play baseball on Sunday? What would your father say if he knew about it?" "You'd better ask him," was the reply; "he's playing shortstop."—Harper's Weekly.

The time used is Pacific standard for the 120th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The height is in feet and tenths of a foot. Esquimalt (at Dry Dock)—From observations during six months, May to October, compared with simultaneous observations at Victoria, B. C., and N. Denison. For time of high water add 15 minutes to high water at Victoria.

### KIDNEY DISEASE FOR TWENTY YEARS

Mrs. Caswell Reid, Orville, Muskoka, Ont., writes: "For nearly twenty years I was troubled with kidney disease, and have recently been completely cured by using three boxes of Dr. Price's Kidney-Liver Pills. I have tried great many remedies, but never seemed to get anything to do me so much good until I used these pills."

### THE INVALUABLE HAIRPIN.

Anthropologists have never done justice to the hairpin. Pillagers will tell you that women are not so inventive as men, don't take out so many patents. They don't have to. With a hairpin a woman can pick a lock, pull a cork, see if a joint of meat is done, do up a baby, regulate a range, tinker a sewing machine.

Of course your grocer has WINDSOR TABLE SALT. He will send it to you always, if you specify WINDSOR.

## AUCTION SALE
